APPROXIMATE PLANNED YARDAGE TO BE PROCESSED THIS PERMIT YEAR: _____

All Excavation, Processing, and Quarry operations are subject to review annually no-later-than April 15 by the Planning Board. It is your responsibility to adhere to the performance standards outlined in the Warren Land Use Ordinance, Shoreland Zoning Ordinance, and any additional requirements determined by the Planning Board. Failure to do so can and will result in violations and potential fines that accrue daily. Pits will be required to have Planning Board review if they are sold, have a change of ownership, if there is a change of use, if the pit exceeds 5 acres, if there is a change in the reclamation plan, or if there is a change in the business plan which increases activity in the pit or in the number of yards removed by 25% or more.

Blasting is only allowed Monday-Friday between the hours of 10:00am and 3:00pm and is not allowed on holidays.

All blasts must be scheduled in advance and notifications issued to the CEO as well as abutters according to the Land Use Ordinance (see below). Unplanned and unreported blasts are violations of the Land Use Ordinance and will be prosecuted accordingly.

Blasting Notification Requirements

All quarry blasting operations shall have notice of such blasting published in a newspaper of local publication and mailed by certified mail to all property owners within 500 feet of the blasting property five (5) working days prior to the intended date of the commencement of blasting. Notice shall include the description of the blasting signals to be used during the operation and an address and telephone number where property owners may request further information and notification.

Any property owner requesting further notification shall do so in writing to the CEO and the owner/operator conducting the quarry blasting operation. b. Prior to any blast, the owner/operator responsible for the blast shall inform all property owners who have requested in writing to be so informed of the impending blast. Such notification shall be given by telephone 24 hours prior to the blast, stating the time of the blast +/- one hour. The burden of proof as to whether the notification was in fact received rests with the person responsible for the blasting operation.

You must present proof of liability insurance in a minimum amount of \$1,000,000 combined with single limit per occurrence, except for agricultural purposes by an individual on his own property using binary explosives.

Submission of an application does not guarantee your activity will be approved. Applications that are missing required submission materials will not be presented to the Planning Board. It is the applicant's responsibility to provide all of the required submission materials for your proposed land use type. For details on what is required, please see the Town of Warren Land Use Ordinance. The Town Planner and Code Enforcement Officer are available as resources to guide you on the requirements for your project. We highly recommend reaching out to schedule a time to discuss your project before submitting your application to ensure it is complete.

Permits are approved or denied based on the provided information on this application and submitted plans and sitemaps. The applicant has the burden of proving they have both the legal right to apply for this permit and that they have provided accurate measurements based on the legal boundaries of the property. Approval of this application in no way relieves the applicant of this burden nor does it constitute a resolution in favor of the applicant of any issues regarding property boundaries, ownership or similar title issues. The permit holder is advised to resolve any such issues before beginning any project.

I have read and understand the above paragraph. To the best of my knowledge, all information submitted on this application is true and correct. I further understand that it is my responsibility to know and comply with all local ordinances and state statutes.

Signature: _____ **Date:** _____

SITE MAP

LAND USE APPLICATION GUIDE

Before you submit your project, did you provide:

- Project narrative outlining your proposed business or use
- Detailed sitemap including:
 - Lot lines with dimensions in feet
 - Locations of all driveways, roads, or rights of way
 - Locations of all wells, septic systems or sewer lines
 - Distance in feet to all shorelines, wetlands, shoreland zones, streams, or brooks
 - Any existing structures, dwellings, out buildings, decks, or exterior stairs including dimensions
 - Proposed structures, additions, or changes including dimensions
 - Areas to be filled or graded
 - Areas to be cleared or trees removed
 - Methods and locations of erosion control if needed
 - Material storage areas
 - Current active operations
 - Area to be reclaimed (if over 5 acres)

If you are not the owner of the property, did you provide:

- Letter or statement from current owner giving approval for your project or proposed use
- Lease agreement (if applicable)

For information on our Land Use Ordinance or our Shoreland Zoning Ordinance, please visit our website at www.warrenmaine.org/town-ordinances.

Please note, if working in the shoreland zone, you may need a DEP Permit in addition to the town's permit
If you have any questions, please contact the Town Planner or the Code Enforcement Officer at (207) 273-2421.
